

New York Liquidation Bureau has implemented an electronic legal bill review system in partnership with Allegient Systems of Wilton, CT, which will streamline the review and payment process as well as eliminate paper invoices. As of June 1, 2010, all outside counsel performing services on third-party claims must submit their invoices electronically via the Allegient Systems web-based service.

This system will enhance and expedite the NYLB's legal bill review and payment process. The website can be found at [www.allegientsystems.com](http://www.allegientsystems.com).
